The UPWP helps to ensure that metropolitan planning activities are part of a continuing, cooperative, and comprehensive (3-C) transportation planning process that involves federal, state, and local agencies as well as those affected by transportation planning decisions.

The UPWP describes the MPO's planning goals and activities, provides cost estimates for each activity, identifies funding sources and outlines a work schedule for the period October 1, 2008 through September 30, 2009.
