CORPUS CHRISTI
MPO
METROPOLITAN PLANNING ORGANIZATION

THE TRANSPORTATION PLANNING PROCESS

It is a Corpus Christi Metropolitan Planning Organization (MPO) policy to support and encourage early and continuous public participation and input to the planning process and to adhere to the principles of Environmental Justice and Title VI of the Civil Rights Act as part of the metropolitan 3-C "continuing, comprehensive, and cooperative" planning process relating to transportation systems and facilities.

MEMBERS OF THE CORPUS CHRISTI MPO

A metropolitan planning organization (MPO) is, by federal law, designated by the governor of each state for every urbanized area with at least 50,000 residents to qualify for federal highway and transit funding. The Corpus Christi Metropolitan Planning Organization is the MPO for

the Corpus Christi Study Area, which covers portions of Nueces, San Patricio and Kleberg counties along the south Texas coastal bend. It is important that the MPO membership is made up of locally elected officials of the cities and counties within the urbanized area.

Other appointed officials include the Chairman of the Regional Transportation Authority (RTA) Board, the Chairman of the Port of Corpus Christi Authority (PCCA) Board, and the District Engineer of the Texas Department of Transportation (TxDOT).

WHAT DOES THE MPO DO?

The MPO carries out three major work activities to meet specific federal requirements:

Develop and maintain the **Metropolitan Transportation Plan (MTP)**. The long-range plan which explains the MPO's transportation policies and goals, estimates future needs and resources, and lays out a detailed program for preserving and expanding the transportation system over a period of 20 or more years.

Develop and maintain the **Transportation Improvement Program (TIP)**. The short-range plan list of projects for which federal funds are anticipated. The list of projects is multi-modal and includes highway and public transit projects, as well as bicycle, pedestrian, and freight-related projects.

The development and annual adoption of the **Unified Planning Work Program (UPWP)** which is a comprehensive one-year planning program that outlines and coordinates the individual transportation planning activities of all agencies in the area.

Without these products, the MPO would lose its eligibility for federal transportation funds for the metropolitan area.
