Ms. Alfaro seconded; the motion passed with six yeas, zero nays, and one recusal by Mr. Yardley.

- Mr. Yardley recused himself from the vote on the approval of the regular meeting minutes, as he was not in attendance at the previous meeting.

4. DISCUSSION AND POSSIBLE ACTION ITEMS

A. DRAFT 2025 Congestion Management Process (CMP)

Mr. MacDonald presented this item.

Congestion management is the application of strategies to improve transportation system performance and reliability by reducing the adverse impacts of congestion on the movement of people and goods. A congestion management process (CMP) is a systematic and regionally accepted approach for managing recurring and nonrecurring congestion. This includes providing accurate, up-to-date information on travel times, location of construction or crashes, and strategies for congestion reduction that meet state and local needs. The CMP is intended to move these congestion management strategies into the funding and implementation stages. The CMP, as defined in federal regulation, is a systematic process that provides safe and effective management and operation of the multimodal transportation system.

Discussion:

- Ms. Sales-Evans recommended a few changes to the CMP that addressed removing typos, minor grammatical errors, adding chart labels, and the verification of the correct STRAHNET layer being referenced in the map.
- Ms. Sales Evans further noted that a future initiative to investigate possible capacity issues during emergency evacuation, peak tourism season, and similar high-traffic events in the future, though not necessary for the adoption of this current CMP document.

- Mr. MacDonald responded that staff can research how other areas, like Houston, address these types of special conditions such as hurricane evacuation.

Motion:

Ms. Sales-Evans made a motion to move to recommend the TPC approve the DRAFT 2025 Congestion Management Process (CMP) with the incorporation of the requested corrections and subject to any additional public comment that may come in.

Mr. Yardley seconded; the motion passed unanimously.

B. DRAFT 2025 Program for Addressing Discrimination (PAD)

Mr. Flores presented this item.

As discussed earlier in 2025, the Corpus Christi MPO Title VI policy document is due for an update. The updated DRAFT 2025 Program for Addressing Discrimination (PAD) was provided as a web link in the agenda packet. The TAC received an earlier version of this document in July 2025. As reported by FHWA, and discussed in previous meetings, several executive actions have impacted environmental justice (EJ) considerations within metropolitan transportation planning regulations. The actions collectively reduce the emphasis on environmental justice and equity considerations in metropolitan transportation planning and related federal infrastructure initiatives.

Discussion:

None

Motion:

Mr. Pollack made a motion to recommend the TPC approve the DRAFT 2025 Program for Addressing Discrimination (PAD), through Resolution 26-03.

Mr. Yardley seconded; the motion passed unanimously.

Post-Motion Discussion:

- Ms. Sales-Evans mentioned a Title VI complaint regarding project selection for certain demographic groups.
- Mr. MacDonald responded that a public comment was submitted during a previous Transportation Improvement Program regarding how projects were selected for certain areas in the region. The comment was addressed by staff in the public comment section of the TIP document. The comment was also shared with the Civil Rights Division of TxDOT in Austin for their review and analysis and he has not heard back from the TxDOT Civil Rights Division.
- Ms. Sales-Evans responded that the complaint was further escalated to FHWA civil rights as well and clarified that her comment is intended to help further discussion on areas of the public involvement process, whether the PAD or the PPP, to try to address the underlying concerns.
- Mr. MacDonald stated that the PPP and PAD both address the underlying concerns by ensuring staff conducts outreach to all groups impacted by conducting the proper demographic analyses. He further noted that some MPOs have modified that work, but the Corpus Christi MPO and TAC is recommending that we continue to look at demographics as part of the public involvement and outreach process.

C. Surface Transportation Block Grant Set-Aside (STBG-SA) CAT 9 Call for Projects Revised Awards

Ms. Costanzo presented this item.

In May 2022, the Corpus Christi MPO completed the competitive evaluation process for the Federal Surface Transportation Block Grant Set-Aside program (STBG-SA). The STBG-SA program corresponds to the TxDOT Category 9 funding program and was continued in the newly approved Infrastructure Investment and Jobs Act/Bipartisan Infrastructure Law (IIJA/BIL). There were seven projects submitted for federal funding, and all seven projects were awarded, totaling \$6,287,751. The Cities of Portland

and Corpus Christi have requested amendments to project awards that do not alter the total allocation of funds from 2022.

Discussion:

- Ms. Sales-Evans raised concerns about the Sunset Lake 2022 project complying with federal requirements and wanted to make sure all rules and proper processes were being followed, and ensure Advanced Funding Agreements are revised for the increased awards if approved.
- Mr. MacDonald stated that staff does not believe there is any issue with the Sunset Lake project since there is an AFA completed and federal partners have approved an FPAA. Four years ago the call for projects guidelines did not specifically address eligibility of recreational projects. That will be updated in the upcoming call for projects guidance this summer.
- Mr. Pollack emphasized the importance of ensuring regional funding does not lapse and take that into consideration for the following call for projects, noting that the cancellation of a project four years after funding approval is concerning and impacts the ability to expend funds in a timely manner.
- Mr. DeLatte addressed the City of Portland's ability to over match and deliver projects that fulfill the Strategic Plan for Active Mobility.
- Ms. Sales Evans noted that regarding the Brooke Road Project, there was some back-and-forth on the AFA between the City of Corpus Christi and TxDOT and there were improvements that had already been made to Brooke Road that resulted in that particular project not being necessary any longer. She further recommended some language in the future call-for-projects guidelines that included expectations regarding notification of awards, process guidance if there are desired changes to an awarded project, potential new federal requirements related to widths and other design considerations for hike and bike trails that need to be met, and how to request a project award be cancelled.
- Mr. Pollack indicated that the MPO used to send individual letters to award recipients that outlines many of the items Ms. Sales-Evans noted and those can be incorporated in the contract language or initial solicitation. He also indicated an interest in regular project updates, quarterly or semi-annually.
- Mr. MacDonald pointed out that many of the items TAC members have requested in the future guidance are included in the guidance document from the previous call-for-projects, which is posted to the MPO website. The TAC will have an opportunity to review the guidance document and make recommendations prior to the next call-for-projects.

Motion:

Mr. Pimentel made a motion to recommend the TPC:

- Delete the City of Corpus Christi Brooke Road Project (\$1,090,703),
- Award an additional amount of funds (\$320,462) for a revised award total of \$684,000 of federal funds to the City of Portland's Memorial Parkway Hike and Bike Phase II Project,
- Award an additional amount of funds (\$770,241) for a revised award total of \$2,770,241 of federal funds to the City of Portland for the Sunset Lake Hike and Bike Trail.

Mr. Yardley seconded; the motion passed unanimously.

D. DRAFT FY 2027-2030 Transportation Improvement Program (TIP)

Mr. Flores presented this item.

The DRAFT FY 2027–2030 Transportation Improvement Program (TIP) was provided to the TAC for review and comment. The MPO staff proposed that the TAC recommend the Transportation Policy Committee (TPC) release the document for the required one-month public comment period. The proposed action by TAC and TPC in the next two months coincides with the TxDOT statewide schedule for adoption of the FY 2027–2030 Statewide Transportation Improvement Program (STIP). TxDOT Headquarters must receive the final, approved TIPs from all MPOs no later than May 29, 2026.

Discussion:

None.

Motion:

Ms. Alfaro made a motion to recommend the TPC release the DRAFT FY 2027-2030 TIP for the one-month public comment period.

Mr. Pimentel seconded; the motion passed unanimously.

E. DRAFT FY 2025 and FY 2026 UPWP with Amendment 2

Mr. MacDonald presented this item.

This item requested the TAC to recommend that the TPC release Amendment 2 to the FY 2025 and FY 2026 Unified Planning Work Program for a one-month public comment period. All changes are shown through track changes.

The primary changes in the document are:

- Reallocation of staff time and the corresponding funding changes to various Subtasks in the UPWP. The focus of the staff time has shifted to the development of the new 2050 MTP. The original FY 2026 UPWP did not contain appropriate staff time to these activities in Task 4.0. Funds were reallocated from other subtasks that were completed earlier by staff or by consultants.
- Updated text changes to identify Amendment 2 in the cover page, footers and throughout the document.
- Updated the TAC And TPC Membership in Appendix A to reflect current members.

Discussion:

- Mr. DeLatte recommended addressing the formatting of the Track Changes to improve clarity of the proposed table edits prior to the public comment period.
- Mr. MacDonald acknowledged the formatting issue and indicated staff would make the necessary edits to improve legibility of figures in the table.

Motion:

Mr. Yardley made a motion to recommend the TPC release the DRAFT FY 2025 and FY 2026 UPWP with Amendment 2 for a one-month public comment period.

Mr. Pimentel seconded; the motion passed unanimously.

F. Corpus Christi MPO Boundary Change Process

Mr. MacDonald presented this item.

The Corpus Christi MPO Planning Area Boundary Change process continues with updated information provided for the TAC. The MPO Staff provided the TPC with the current updated information at their March 5, 2026, meeting. The goal is to narrow the discussion topics and develop a proposed MPA Boundary for TAC to recommend to the TPC. The MPA Boundary is one component of the future Boundary Change Package required by TxDOT.

Discussion:

- Ms. Sales-Evans noted communications between TxDOT and Robstown representatives.
- Mr. Yardley shared that he would reach out to the City of Gregory to touch base regarding representing the City of Gregory for the MPO.

Motion:

Mr. Yardley made a motion to recommend the TPC approve the proposed DRAFT new MPA Boundary as part of the future MPA Boundary Change packet.

Ms. Sales-Evans seconded; the motion passed unanimously.

5. INFORMATION ITEMS

A. Project Prioritization & Community Impact Assessments Tool Presentation by Consultant Team

Ms. Brittany Gernhard, from High Street Consulting, presented this item.

Discussion:

- Ms. Sales-Evans posed several questions to the consultant, including how transit improvements were defined, which Ms. Gernhard addressed.

6. TAC MEMBER STATEMENTS ON LOCAL AGENCY ACTIVITIES OR ITEMS OF INTEREST

- Ms. Alfaro mentioned the CCRTA Maintenance Facility groundbreaking will be held on March 23, 2026.

The meeting was adjourned at 10:30 a.m.

Date: April 9, 2026
To: Technical Advisory Committee (TAC)
From: Jafet Flores, Transportation Planner
Through: Robert MacDonald, Transportation Planning Director
Subject: Item 4A: DRAFT FY 2027-2030 Transportation Improvement Program (TIP)
Action: Review, Discuss, Receive Public Comments, and Possible Action

Summary

The DRAFT FY 2027–2030 Transportation Improvement Program (TIP) is being provided to the TAC for a final review, comment and recommendation. The Transportation Policy Committee (TPC) released the document for the required one-month public comment period on April 2, 2026. Public Notice 26-3 is provided as Attachment 1 and Draft Resolution 26-4 is included as Attachment 2 for TAC’s review. The proposed action by TAC and TPC in April and May coincides with the TxDOT statewide schedule for adoption of the FY 2027–2030 Statewide Transportation Improvement Program (STIP). TxDOT Headquarters must receive the final, approved TIPs from all MPOs no later than May 29, 2026. The current FY 2027-2028 TIP development schedule is provided as Attachment 3 and illustrates the process flow of activities leading to the document approval.

DRAFT FY 2027-2030 TIP Funding Estimates for the Corpus Christi MPO

The preliminary estimate for state and federal funding in the DRAFT FY 2027-2030 TIP for the Corpus Christi MPO is highlighted in the table on the next page. The new TIP must be fiscally constrained so that funds programmed cannot exceed the funds that are reasonably expected to be available. The funding levels for developing the DRAFT 2027 UTP and FY 2027-2030 TIP are based on the current estimates for 4 and 10 years of funding available to the Corpus Christi MPO. The Corpus Christi MPO concludes that it is a reasonable estimate of funds identified by TxDOT. Public Transportation funding estimates were developed by the CCRTA and the MPO concurs that these estimates are reasonable. Based on current programming assumptions, approximately \$420 million is anticipated to be available for highway and transit projects and programs during the four-year TIP period.

Certain funding Categories (CATs) may have carryover funds from previous years, although the requirement to obligate the funds within 3 years of their available year still remains. Attachment 4 is TxDOT’s summary description of all funding categories (CATs) from the DRAFT 2027 UTP. These descriptions will be used in the DRAFT FY 2027-2030 TIP document.

Fiscal Impact Considerations

Fiscal constraint within the TIP is maintained by applying year-to-year inflation to project costs during the TIP period. The current inflation assumption is four percent (4%) annually, consistent with TxDOT guidance, although recent market conditions have resulted in higher observed inflation. Inflation is not applied to projects programmed beyond the four-year TIP horizon in the 10-year UTP.

MPO staff coordinated with TxDOT Corpus Christi District staff to review funding allocations and ensure appropriate use of available funding categories. Adjustments were made to optimize the use of certain funding categories and to reduce the risk of fund lapse or reallocation, consistent with current TxDOT and Texas Transportation Commission policies.

TxDOT

The TxDOT Corpus Christi District selection process for applicable funding categories followed the TxDOT STIP performance-based project selection framework. The TIP development schedule aligns with the TxDOT STIP timetable to ensure coordinated review, public involvement, and approval. Attachment 5 illustrates the proposed highway projects for the MPO. All projects are sponsored by TxDOT. No MPO local governments have applied for funding.

CCRTA

The CCRTA Board of Directors adopted their 5-year budget forecast to include operating and capital project revenues from all sources. These estimates are incorporated into the DRAFT FY 2027-2030 TIP as well as the list of projects and programs to be funded in this TIP time period. Attachment 5 illustrates the projects and programs for the CCRTA.

The DRAFT MPO Self Certification can be found in attachment 6, document that is required by the Federal Highway Administration and the Federal Transit Administration to ensure that the federal transportation funds are being used properly and that planning is fair and transparent.

Bridge Maintenance and Improvement Program: For rehabilitation and preservation of eligible bridges on the state highway system.

Bridge System Safety Program: For the mitigation or elimination of higher risks on bridges such as deficient rails, documented scour or scour critical rating, documented history of debris, or steel or timber piling with advanced deterioration. Also for elimination of at-grade highway-railroad crossings through the construction of highway overpasses or railroad underpasses, and rehabilitation or replacement of deficient railroad underpasses on the state highway system.

Project Selection

Districts submit candidate projects to BRG through the annual project call.

Program Manager: Bridge Division

Funding Approval: Bridge Division

Project Scoring / Ranking: TxDOT's Bridge Division selects projects using a performance based prioritization process.

Highway Bridge projects are ranked first by condition categorization (e.g., Poor, Fair, Good) and then by extent of deterioration.

Bridge Maintenance and Improvement projects are selected statewide based on identified bridge maintenance/improvement needs.

Bridge System Safety projects involving railroad grade separations are selected based on a cost-benefit analysis of factors such as vehicle and train traffic, accident rates, casualty costs, and delay costs for at-grade railroad crossings. Other system safety projects are selected on a cost-benefit analysis of the work needed to address the safety concern at bridges identified with higher risk features.

Category 8: Safety

Highway Safety Improvement Program (HSIP): Federal aid program administered by Traffic Safety Division (TRF) to fund safety projects **on and off the state highway system**, with the purpose to achieve significant reductions in traffic fatalities and serious injuries on all public roads. Traffic projects must align with the emphasis areas in the Texas Strategic Highway Safety Plan (SHSP) such as roadway and lane departures, intersections, older road users, and pedestrian safety.

TRF provides districts with funding projections for on-system targeted, on-system systemic, and off-system projects, and districts submit project proposals for review and concurrence by TRF. The funding remains allocated to and supervised by TRF.

Systemic Widening Program (SSW): Statewide program to fund the widening of high risk narrow highways on the state highway system.

Completed Programs with no additional project calls/selections under Category 8: High Risk Rural Roads (HRRR), Safety Bond Program, and Road to Zero.

Project Selection

HSIP: Districts submit project selections for on-system targeted, on-system systemic, and off-system projects meeting TxDOT's HSIP Guidance. TRF reviews and approves projects submitted through annual program calls.

SSW: Project locations are prioritized statewide and selected based on high risk factors and cost.

Program Manager: Traffic Safety Division

Funding Approval: Traffic Safety Division

Project Scoring / Ranking: **HSIP:** Projects are evaluated, prioritized, and selected at the district level based on three years of crash data (targeted funds) or systemic approved projects as outlined in the HSIP guidance.

SSW: Projects are evaluated by roadway safety features for preventable severe crash types using total risk factor weights.

Category 8: Rail

Funding Program Purpose

Rail-Highway Crossing Program (Federal Railroad Set-Aside): Funding set aside from HSIP for safety improvements to reduce fatalities, injuries, and incidents at on and off-system public at-grade crossings. Funds may also be used to mitigate blocked at-grade crossings.

Project Selection

Rail Division manages the selection and management of projects in line with the latest Rail Highway Operations Manual. Project review is based on project calls and to supplement existing HSIP or other traffic signal projects impacted by a railroad crossing.

Program Manager: Rail Division

Funding Approval: Rail Division

Project Scoring / Ranking: Projects are evaluated using the railroad crossing index. Projects are ranked and rated based on criteria in the latest Rail Highway Operations Manual. Emphasis is placed on traffic signal preemption.

Category 9: Transportation Alternatives

Funding Program Purpose

Addresses: Projects under the federal Transportation Alternatives (TA) Set-Aside Program such as:

- » Design and construction of bicycle and pedestrian infrastructure
- » Active transportation network plans
- » Improved access for bicycle, pedestrian, and transit users along divided highways
- » Safe routes to schools non-infrastructure programs
- » Other eligible activities consistent with federal guidelines outlined in rules adopted by MPOs for their TA programs.

Project Selection

TxDOT allocates 59% of Category 9 funds to subareas of the state based on population. The other 41% is designated for statewide use, a portion of which may be available to transfer to other federal programs if certain conditions are met.

MPOs with a population over 200,000, which are designated as TMAs, administer competitive calls for projects for TA funds suballocated to their areas. For these funds, MPOs select projects in consultation with TxDOT districts.

TxDOT's Public Transportation Division (PTN) administers a competitive calls for projects for TA funds suballocated to rural and urban areas (with a population of 200,000 or less) as well as funds designated for statewide use regardless of population size.

Subject: Item 4B: DRAFT FY 2025 and FY 2026 Unified Planning Work Program (UPWP) with Amendment 2
Action: Review, Discuss, Receive Public Comment and Possible Action

Summary

This item is a TAC recommending action that the Transportation Policy Committee (TPC) approve Amendment 2 to the FY 2025 and FY 2026 Unified Planning Work Program (UPWP) at the May 7, 2026 TPC Meeting. The TPC released the document for the one-month public comment period on April 2nd. All changes are shown through track-changes format in the document. Attachment 1 is Public Notice 26-3 released on April 2, and Attachment 2 is the link to the DRAFT FY 2025 and FY 2026 UPWP with Amendment 2 document.

The primary changes in the document are:

- Reallocation of staff time and the corresponding funding changes to various Subtasks in the UPWP. The focus of the staff time has shifted to the development of the new 2050 MTP. The original FY 2026 UPWP did not contain appropriate staff time to these activities in Task 4.0. Funds were reallocated from other Subtasks that were completed earlier or by consultants
- Updated text changes to identify Amendment 2 in the cover page, footers and throughout the document
- Updated the TAC And TPC Membership in Appendix A to reflect current members.

Fiscal Impacts

None at this time. The FY 2025 and FY 2026 UPWP with Amendment 2 maintains the same total federal funding levels. The changes are reallocations of funds between some of the Subtasks. There are no local funds in the UPWP.

From: Keren Costanzo, Senior Transportation Planner
Through: Robert MacDonald, Transportation Planning Director
Subject: Item 4C: DRAFT FY 2027 Unified Planning Work Program (UPWP)
Action: Review, Discuss, Receive Public Comments and Possible Action

Summary

The DRAFT FY 2027 Unified Planning Work Program (UPWP) is presented to the TAC for review, comment and possible release for the required one-month public comment period. The UPWP serves as the primary planning and budget document for the Corpus Christi MPO and outlines the transportation planning activities, tasks, schedules, and funding allocations for Fiscal Year 2027. The TAC action to release the DRAFT FY 2027 UPWP is intended to maintain compliance with federal and state planning requirements and meet the schedule for adoption and subsequent approval. Draft Public Notice 26-4 and Draft Resolution 26-05 are included as Attachments 1 and 2, respectively.

The DRAFT FY 2027 UPWP has been developed in cooperation with the CCRTA, TxDOT, FHWA and the FTA. The document reflects regional transportation priorities identified in the Metropolitan Transportation Plan (MTP), Transportation Improvement Program (TIP), and other adopted plans and programs. The UPWP continues to support a comprehensive, performance-based, and multimodal planning process that advances safety, mobility, connectivity, system preservation, economic vitality, and efficient use of resources to transportation in the MPO planning area.

The FY 2027 Budget Summary Table, included as Attachment 3, provides an overview of the funding allocation by task. The Transportation Planning Funds (TPF) include both FHWA PL-112 and FTA Section 5303 Funds. TxDOT will apply transportation development credits sufficient to provide the match for TPF. As the transportation development credits reflect neither cash nor personnel-hours, they are not incorporated in the funding table.

Attachments 4 through 7 are UPWP appendices requiring MPO self-certification, and are included for reference. The Draft FY 2027 UPWP is included as Attachment 8 for review.

Recommendation

MPO staff proposes that the TAC recommend the TPC approve the release of the DRAFT FY 2027 Unified Planning Work Program for a one-month public comment period in accordance with the MPO's adopted Public Participation Plan.

Proposed Motion

Move to recommend the TPC release of the DRAFT FY 2027 Unified Planning Work Program (UPWP) for a one-month public comment period.
