Once approved, the STIP can be amended for the first time in November 2026 following the TxDOT STIP Revision process.

To: Transportation Policy Committee (TPC)
From: Keren Costanzo, Senior Transportation Planner
Through: Robert MacDonald, Transportation Planning Director
Subject: Item 5B: Small Area Forecast Task Force Population and Employment Allocation for the 2050 MTP
Action: Review, Discuss, and Possible Action

Summary

The Corpus Christi Metropolitan Planning Organization (MPO) Small Area Forecast (SAF) Task Force developed population and employment allocations for the year 2050. These estimates are vital components of transportation planning and a critical initial step in developing the 2050 Metropolitan Transportation Plan (MTP). Forecasts of the amounts and locations of population and employment changes for the time frame of the plan (years 2025-2050) are used to identify locations, types, and severity of transportation needs.

The approved population control totals below were developed based on the Texas State Demographic Center's county projections. The employment control totals use Data Axle 2021 jobs data as the baseline employment totals and to estimate the future level of employment by increasing county employment proportionally with the change in county population.

Population Control Totals							
County	2020* Census	TDC 2050 Projection Migration Scenarios and Growth					
		Low	Low Growth	Mid	Mid Growth	High	High Growth
Nueces	353,178	351,500	-1,678	354,533	1,355	359,006	5,828
San Patricio	68,755	77,438	8,683	79,142	10,387	81,765	13,010
Aransas	23,830	25,990	2,160	26,091	2,261	26,280	2,450
Total	445,763	454,928	9,165	459,766	14,003	467,051	21,288

*Used as 2021 base year in travel demand model

Employment Control Totals							
County	2021 Data Axle	2050 Proportional Growth by Migration Scenario					
		Low	Low Growth	Mid	Mid Growth	High	High Growth
Nueces	195,674	194,744	-930	196,425	751	198,903	3,229
San Patricio	22,100	24,891	2,791	25,439	3,339	26,282	4,182
Aransas	7,262	7,920	658	7,951	689	8,008	746
Total	225,036	227,556	2,520	229,814	4,778	233,193	8,157

While the Corpus Christi MPO's Transportation Policy Committee (TPC) adopted the Mid-Growth scenario earlier this year, highlighted in yellow, the SAF Task Force review of residential construction data and accompanying discussions during the July and August 2026 meetings resulted in a recommendation to utilize the High Growth scenario across the Corpus Christi MPO counties for population as circled in red above. To maintain consistency across population and employment allocations, the SAF Task Force also recommended the High Growth employment scenario.

The Small Area Forecasts of population and employment change may not exceed the control total for each county and cannot be shifted between counties. However, population and employment may be added, shifted, or reallocated to Traffic Analysis Zones (TAZs) located within the same county as long as the total projected population and employment changes in the county match the control totals. A summary map of the TAZs by County is provided below.

Population Allocation Methodology

Guided by the SAF Task Force, new Population growth for each TAZ is estimated by calculating the share of new residential construction since 2021 in the TAZ relative to the total new residential construction in the County since 2021 and applying that proportion to the county population control total for the high growth scenario.

For TAZs in Nueces County, the residential demolition data for each TAZ was used to estimate the population decline in that TAZ, which was then reallocated proportionally to Nueces County TAZs based on the share of new residential construction. Demolition permits beyond the City of Corpus Christi are not currently available.

Active short-term rental permits in Corpus Christi TAZs were also reviewed by the Task Force, but not found to significantly impact the allocation estimates and ultimately not incorporated into the allocation calculations.

Employment Allocation Methodology

The 2021 base year employment estimate uses 2021 data from Data Axle, adjusted to ensure employment reported for business headquarters are properly allocated geographically. For example, educator jobs assigned to various ISD headquarters are properly distributed to individual school campuses in the data presented.

The 2050 employment growth estimates are calculated for each TAZ by maintaining the current TAZ proportion of county employment and applying this ratio to the county's high growth employment scenario estimate.

Attachment 1 is a link to download an excel spreadsheet of the recommended High Population and Employment Growth Scenario allocations. **Attachment 2** is a link to a web map to assist with the review of the projected population and employment growth in each TAZ. The web map includes layers that can be turned on and off by the viewer, including locations of wind farms and wetlands, new residential construction built since the Census baseline population count, and the locations of residential demolition and active short-term rental permits, as provided by the City of Corpus Christi.

Recommendation

The Corpus Christi MPO staff and Technical Advisory Committee (TAC) jointly recommend the Transportation Policy Committee (TPC) adopt the High Growth Scenario and approve the Small Area Forecast Task Force's recommended population and employment forecasts by TAZ.

Once approved, the total population forecasts by TAZ will be systematically sub-allocated into appropriate number of households and number of group quarters - institutional and non-institutional, from the 2020 U.S. Census information. The total employment forecasts by TAZ will also be systematically sub-allocated onto appropriate groupings of Retail, Basic, Education and Service jobs using the proportion of these jobs from the 2021 Data Axle information in each TAZ. These sub-allocations are used by the Corpus Christi MPO's travel demand model to eventually create traffic volumes for the year 2050.

Proposed Motion

Recommend the TPC approve:

1. The high growth scenario control totals for population and employment based on the Texas State Demographic Center, and
2. The population and employment forecasts for 2050 in Nueces, San Patricio and Aransas Counties' TAZs as recommended by the Small Area Forecast Task Force.

To: Transportation Policy Committee (TPC)
From: Robert MacDonald, Transportation Planning Director
Subject: Item 6A: SH 361 Project Discussion for Corpus Christi MPO Planning Processes
Action: Information Only

Summary

In the last few weeks, there have been a few media reports and meetings concerning State Highway (SH) 361 on North Padre Island and Mustang Island, specifically related to safety and the recent fatalities on the Texas Department of Transportation (TxDOT) roadway. The Corpus Christi Metropolitan Planning Organization (Corpus Christi MPO) has been asked to add an information item for the September 3, 2026, Transportation Policy Committee (TPC) agenda to discuss this roadway.

Traffic Safety is one of the critical aspects of the Corpus Christi MPO's planning efforts. Key efforts by the MPO include:

- Establishment by the TPC of a Regional Traffic Safety Task Force in March of 2022.
- Development of the Corpus Christi MPO's Crash Data Dashboard on our website to illustrate the crash history from the TxDOT Crash Records Information System (CRIS) database for the 2010-2024 time period. See the link provided as Attachment 1.
- The adoption of the Regional Safety Action Plan (RSAP) in October 2024. The RSAP follows the standard aspect of safety analysis identified by the Federal Highway Administration (FHWA) and reviewed all crashes in the CRIS database for the years 2016-2022 to be used in the RSAP analysis. The Corpus Christi MPO's RSAP identified 32 locations that were targeted to receive proposed FHWA identified proven countermeasures as ways to reduce fatalities and serious injury crashes at these locations. See the table of the 32 locations and a link to the RSAP in Attachment 2.
- Development of annual Safety Performance Measures and Targets for Performance Measure 1 (PM1) required of all 24 MPOs and TxDOT. See Attachment 3 for the current TPC Resolution on PM1.
- Creation of a Regional Safe System Plan (RSSP) that is in its final stages to be presented by the Corpus Christi MPO's consultant team to the Regional Safety Task Force in September. The RSSP uses the national standard for safety analysis and efforts as stated by the FHWA.

Current Project Funding Lists

- The Corpus Christi MPO DRAFT 2045 MTP Update with Amendment 3 Fiscally Constrained Highway Projects List and Additional Needs Project List. See Attachment 4.
- The 2027 TxDOT Unified Transportation Plan (UTP) Corpus Christi District Highway Project Listing Table. See Attachment 5.
- The Corpus Christi MPO DRAFT FY 2027-2030 Transportation Improvement Program (TIP) with Amendment 1 Fiscally Constrained Highway Projects List. See Attachment 6.

Project Funding Policy Options

Corpus Christi MPO Funding Options

To allocate funding to SH 361, the Corpus Christi MPO can receive project information from TxDOT and consider funding for the proposed project or phases of the project. Currently, the Corpus Christi MPO's four-year FY 2027-2030 TIP is fiscally constrained with projects identified in Attachment 6.

The Corpus Christi MPO can review the existing projects, and if agreed, replace one or more projects with a project of higher priority. This effort requires close coordination with TxDOT as the project sponsor for all TIP highway projects.

Similarly, the TxDOT 10-year 2027 UTP, adopted on August 26, 2026, would also require coordination and approval by TxDOT to replace a project or projects with a project identified as higher priority. The 2027 UTP list of projects for the Corpus Christi MPO and the TxDOT-CRP District are included as Attachment 5.

This is a TxDOT approved document that is also accepted as the Corpus Christi MPO's 10-year Transportation Plan.

The Corpus Christi MPO's 20-year Transportation Plan is the DRAFT 2045 MTP Update with Amendment 3 with Table 7-2 provided as Attachment 4. In the DRAFT 2045 MTP Update with amendment 3, the list of projects has been identified by TxDOT and the Corpus Christi MPO through the TPC actions. As with the TIP, the TPC can amend the MTP for critical projects to be funded.

TxDOT CRP District Funding Options

The TxDOT District has implemented a few immediate changes for SH 361, including reducing the speed limit to 50 mph, posting variable message signs about the speed changes and alerting drivers to their speed as well as providing real-time traffic cameras for residents to observe the conditions of the roadway. Public information has also been shared with local media to alert drivers of the changes.

On August 26, 2026 the Texas Transportation Commission adopted the 2027 UTP. Within that document is the funding available and projects identified for both the Corpus Christi MPO and the TxDOT-CRP District. The tables of projects are shown in Attachment 5, which include projects outside the Corpus Christi MPO as well as those within the Corpus Christi MPO boundaries.

For SH 361, the segment from Port Aransas south to the Corpus Christi city limit is an area outside the Corpus Christi MPO boundary and subject to TxDOT District and Statewide funding decisions. SH 361, south of the Corpus Christi city limit to PR 22 is within the Corpus Christi MPO and subject to funding decisions for the Corpus Christi MPO-directed funds.

The TxDOT SH 361 Project webpage is located here:

<https://www.txdot.gov/projects/hearings-meetings/corpus-christi/2024/sh361-mustang-island-project-091924.html>

Texas Department of Public Safety (DPS) and City Police Enforcement Options

Currently, the Texas DPS has increased safety patrols on this corridor focused on speeding enforcement, distracted driving, and other driver behaviors that have been identified in the crash reports on that roadway. The City of Corpus Christi and the City of Port Aransas Police Departments also have increased their activities on SH 361.

State Legislature Funding Options

For major projects in Texas, the State Legislature can allocate funding for projects to be completed by TxDOT. These funds are typically state funds. The next biennial Legislative Session begins in January 2027.

Federal Grants

Projects in the Corpus Christi MPO can be identified by local governments or TxDOT as eligible for federal grants to construct projects in a national competition. Attachment 7 is the Federal Grant Funding Summary

Table from Agenda Item 6B on the agenda. Typically, these funds require a 20 percent match of the federal funds. Some federal safety programs do not need a non-federal match. If approved, these funds would be included in future amendments to the Corpus Christi MPO planning documents of the TIP, UTP and MTP.

Financial Impacts

All Corpus Christi MPO planning documents are required to be fiscally constrained to the amount of funding determined to be available by the MPO, TxDOT, CCRTA and FHWA/Federal Transit Administration (FTA). The DRAFT 2050 MTP Chapter 6 – Financial Plan identifies the funding expected for the Corpus Christi MPO through 2050. See Attachment 8 for the Financial Plan Table in Chapter 6 of the DRAFT 2050 MTP.

Recommendation

None. This is an information item.

Proposed Motion

None. This is an information item.

Background

In the normal Corpus Christi MPO planning processes, there are occasions to add, remove, or change the level of funding for projects in the TIP. Since MTPs, TIPs, and STIPs must be consistent and synchronized. Changes in the TIP must be reflected in the MTP. Redemonstration of fiscal constraint is necessary for every Amendment to a TIP and MTP, so that the projects that are funded cannot exceed the level of funding that is reasonably expected to be available.

Along with the development of this action plan, a project list has been developed to address critical safety needs that is shaped by data, implements proven safety countermeasures with quantifiable crash reduction factors, and considers equity and community input. The initial 20 locations may include multiple projects that would address the nature and magnitude of the safety problem followed by development of countermeasures and benefit/cost analysis of proposed improvements.

DRAFT RESOLUTION 26-01

2026 SAFETY (PM1) PERFORMANCE MEASURES AND TARGETS

WHEREAS, the Corpus Christi Metropolitan Planning Organization (Corpus Christi MPO) was established to identify and support the implementation of regionally significant transportation projects to address future mobility needs; and

WHEREAS, the Infrastructure Investment and Jobs Act (IIJA) requires the Texas Department of Transportation (TxDOT) to establish targets for Safety (PM1) Performance Measures; and

WHEREAS, the IIJA also requires each MPO to either support the PM1 targets established by the state DOT (TxDOT) or adopt a separate set of targets no later than 180 days after TxDOT adoption;

NOW, THEREFORE, BE IT RESOLVED that the Corpus Christi MPO Transportation Policy Committee hereby supports the TxDOT PM1 targets for the performance measures and adopts these within this Resolution; and

BE IT FURTHER RESOLVED that the Corpus Christi MPO Transportation Policy Committee will plan and program projects that contribute to the accomplishment of said targets:

DISTRICT HIGHLIGHTS AND PRIORITIES

The Corpus Christi District’s planning reflects a big-picture perspective focused on statewide and regional mobility, as well as on the safety and maintenance of roadways. The designation of US 77, US 281 and US 59 as future interstate highway corridors uniquely positions the district to plan and develop these corridors to add new interstate lane mileage to the transportation system. Improvements to both US 77 and US 281, including new overpasses, frontage roads and several relief routes, are in preparation for these roadways becoming I-69E and I-69C, respectively.

In addition, the US 59 corridor is in early project development to upgrade the roadway for enhanced mobility. The use of Category 4 funding allows the district to continue work on these nationally significant projects and the funding levels demonstrate ambitious planning over the next decade.

Heavy truck traffic in the Eagle Ford Shale contributes to maintenance needs in the district. Accordingly, the district receives energy sector funding through Category 11 to support rehabilitation of these roads. We also routinely request statewide Category 6 and Category 8 funds to address various bridge and safety needs located throughout the district.

Summary

The Corpus Christi MPO staff presents grant-related information on an ongoing basis to serve as a focus area for the Regional Coordination Group, which is the monthly Technical Advisory Committee (TAC) meeting. Staff also provides monthly updates to the Transportation Policy Committee (TPC).

The TAC and Corpus Christi MPO staff invite other local agency staff to provide information on transportation projects and program grant submittal proposals. We encourage attendance at the TAC meeting to provide input on the specific federal transportation grants being proposed and identified for future submittals to these federal transportation grant programs. The Corpus Christi MPO staff will inform the TPC and TAC of available grant opportunities whenever these become available and ask for their comments and directions as part of the regional coordination efforts.
